Gardening Preparation

With winter coming to an end it's a good time to start preparing for yard and garden. Once the snow melts plan to:

1. Prune trees and shrubs as needed.
2. Cut perennials, be kind to cold sensitive perennials.
3. Clean-up your yard, plants, and trees as soil thaws.
4. When it warms enough, in a prepared area, plant pansies and some hardy perennials.
5. When planting, note soil quality, plant size, and light.

There is a lot of work to be done this year in our community gardens. I hope you will take this opportunity to volunteer. If you have helped in the past or you would like to help please e-mail me, or contact the city at 801-627-1919. Sandra Saunders, Community Gardener (sndrsut@aol.com)
