Spring Gardening

March brings with it the start of spring. Now is time to get ready to garden. This month gardeners can clean out flower beds from last fall and prep the vegetable garden. Here is the list of early spring vegetable seeds to plan now because they enjoy the cold: peas, carrots, radish, and onions. Also get your green house set-up with starter seed to transplant in May. Gardening is a great exercise and can help reduce stress. Get ready now for the City's Garden Market in July!
